DETAILED ACTION

The following action is in response to the amendment received September 9, 2004 and following the Decision on Petition dated August 26, 2005.

Priority

Benefit under 35 USC 120 of application PCT/DE00/02275 is granted.

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the sensors of claims 105, 106, and 107, the control means of claims 104 and 105, the control system of claim 107, the means for turning of claim 111, the electromagnet or slave cylinder of claim 112, and the collect chuck of claim 113 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure

Art Unit: 3681

is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Election/Restrictions

Claims 9, 43, 44, 46-55, 59, 61, 64-66, 91-93, 100-103, and 107 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention and species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on March 5, 2003.

Claim Objections

Claim 111 is objected to because of the following informalities: "beig" in line 17 should be – being --.

Appropriate correction is required.

Art Unit: 3681

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 3-8, 10, 11, 13-42, 45, 56-58, 60, 62, 63, 67-87, 90, 94-96, 98, 99, 104-106, and 108 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-12 of U.S. Patent No. 6,886,675.

Although the conflicting claims are not identical, they are not patentably distinct from each other because they define the same apparatus for effecting a relative movement between first and second parts.

Allowable Subject Matter

Claims 111-113 are allowed.

Response to Arguments

Priority is granted on applicant's prior PCT application (PCT/DE00/02275).

Accordingly, the rejections based on Aschoff et al.(US 2003/0089572 A1) are withdrawn.

The amendment filed September 9, 2004 obviate the rejection under 35 USC 112, second paragraph. Accordingly, the rejection is withdrawn.

In reviewing the claims and the disclosure, it appears that certain claimed features are not shown in the drawings. Therefore new drawing objections have been raised.

A new obviousness-type double patenting rejection has also been added in view of US Patent 6,886,675. Since this new rejection is not necessitated by applicant's amendment, this is not a final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney H. Bonck whose telephone number is (571) 272-7089. The examiner can normally be reached on Monday-Friday 7:00AM - 3:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles A. Marmor can be reached on (571) 272-7095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
